## WORK EXPERIENCE

---

### IIIT Hyderabad Intern

May 2023

Hyderabad, Telangana

- Completed a summer internship at IIIT-Hyderabad in May 2023, acquiring hands-on experience in web development, Python, CSS, HTML, and project management. Demonstrated strong problem-solving, research, and teamwork skills while contributing to project goals under the mentorship of Dr. Anil Kumar Vuppala.
- Participated in information technology classes, showcasing dedication and commitment to learning. Developed practical skills in web development, project management, and effective communication, receiving positive feedback for initiative and problem-solving abilities.

### Cognifyz Web Development Intern

August 2023 – September 2023

- Served as a Web Development Intern at Cognifyz Technologies from August 2023 to September 2023, exhibiting strong commitment to learning and web development, with exceptional coordination, communication, and attention to detail.
- Tackled new challenges with enthusiasm and dedication, showcasing a passion for web development and receiving positive feedback for effective problem-solving and task management.

## PROJECTS

---

### Tic Tac Toe Game

[View in GitHub](#)

- Developed a fully functional Tic-Tac-Toe game using Python for backend logic, JavaScript for interactive features, and HTML/CSS for a responsive user interface, ensuring seamless gameplay and dynamic updates across devices.
- Designed and implemented a clean, intuitive UI with HTML/CSS and utilized JavaScript for game state management and Python for AI opponent logic, delivering an engaging and visually appealing user experience.

### To Do List

[View in GitHub](#)

- Developed a dynamic To-Do List application using HTML, CSS, and JavaScript, incorporating add, edit, and delete functionalities for efficient task management and real-time updates.
- Designed an intuitive user interface with CSS and integrated local storage for data persistence, ensuring a seamless and interactive user experience across sessions.

## Portfolio

[View in GitHub](#)

- Developed a personal portfolio website using HTML, CSS, and JavaScript, featuring interactive design elements, dark/light mode toggle, and a responsive layout for optimal viewing across devices.
- Implemented dynamic content updates and form handling with JavaScript, enhancing user engagement, accessibility, and feedback collection.
